The RMT are organising a Mass Meeting for ALL members and activists working for LUL, Metronet and TfL to discuss the mass job cuts; 2009 pay talks and an end to the bullying of our members that has seen disciplinary clampdowns, harassment of people that happen to get ill and even covert surveillance of our members and their families. Hear updates from your officials, obtain assistance from your reps and help set the agenda for the forthcoming Company Councils. We've seen enough of the attacks on our conditions and agreements and its time to speak out! It is very important that we have as large a turn out as possible.
