

action for international solidarity

Stop Israel Railways Sacking Arab Workers

Israel Railways is introducing a new rule that level crossing guards must hold firearms licences. This effectively restricts these jobs to army veterans. Since Israeli Arabs are exempted from military service, they will be excluded from these jobs.

Israel Railways issued 40 Israeli Arab citizens with redundancy notices on Sunday March 29, effective from the beginning of April.

The Tel Aviv labour court has twice suspended the implementation of the workers' dismissal, most recently on April 19.

We believe that solidarity from around the world can persuade Israel Railways not to go ahead with this attack on jobs and on equal rights.

Join  's protest

Monday 11 May, 13:00, Israeli embassy

High St Kensington / Palace Green (nearest Tube: High Street Kensington)

RMT General Secretary Bob Crow has asked the Israeli embassy to receive a delegation from the union to express our objections to this policy and our support for our fellow rail workers.

Come to the embassy to support our delegation and join the protest.

RMT opposes both anti-semitism and anti-Arab racism, and supports the creation of a Palestinian state alongside Israel.
